ROSLYN HEIGHTS, N. Y.**

## STASSEN BULBS—*Direct from Holland*

For centuries Holland has been known as the bulb center of the world. Everyone recognizes the superior quality of Holland bulbs—grown to perfection by men who have generations of experience behind them. No machines are used on the Stassen bulb farms that might cause injury to the bulbs. Each bulb is planted by hand, cultivated by hand, and dug by hand—a real labor of love that results in each bulb being a perfect specimen capable of superior performance.

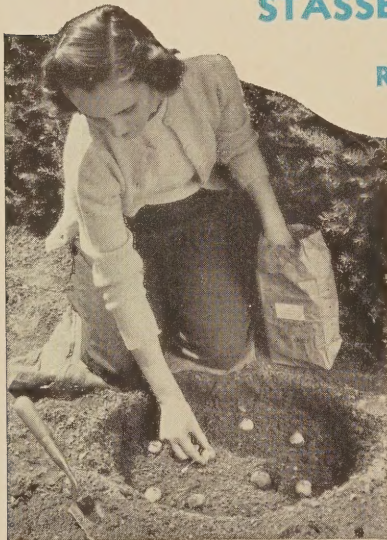

Through our connections with Stassen in Holland, we are able to send you top-quality bulbs *grown and packaged* right there, and delivered to you just as they come to us—in special perforated bags which keep the bulbs in the best condition. You may feel confident, therefore, that your bulb requirements placed with us will have the best of care.

### STASSEN FLORAL GARDENS, Inc.

106 Jefferson Avenue

ROSLYN HEIGHTS, N. Y.

Telephone: Roslyn 3-0932

To obtain the greatest possible enjoyment from Stassen bulbs, plant them in groups rather than in long, straggly lines. For best effects, use only one variety or color in each group.

## HOLLAND BULBS—

*The easiest to Grow*

Nothing to do but plant them in the fall! No other work during the entire winter while they are growing in the ground. Even when they come up in the spring, no further attention is needed! No weeding—no spraying for insects. The bulbs take care of themselves! Without further bother, they will produce gorgeous flowers in your garden year after year.

## QUESTIONS and ANSWERS

- **Are Holland BULBS DIFFICULT TO GROW?**  
No. Under normal conditions Holland bulbs will produce well-developed flowers because the flower buds are already formed inside the bulbs when you receive them.
- **Where CAN I PLANT THEM?**  
Anywhere, in either sun or partial shade.
- **What KIND OF SOIL DO THEY NEED?**  
No special kind. Any garden soil will grow them.
- **Is FERTILIZER NECESSARY?**  
Chemical fertilizers are not advised. An application of an organic fertilizer such as manure or bonemeal is helpful.
- **How MANY BULBS WILL I NEED?**  
Tulips require 5 to 8 bulbs per square foot, Daffodils 4 to 5 bulbs, Hyacinths 3 to 4 bulbs, and the Heralds of Spring about 12 bulbs.
- **Do Bulbs NEED PROTECTION DURING THE WINTER?**  
No, they are hardy. If you live in a climate where the ground alternately freezes and thaws, cover the ground with a light mulch.
- **Should I CUT OFF THE GREEN FOLIAGE AFTER THE BLOOMS ARE GONE?**  
No, let it die down naturally. The green foliage is necessary for the development of the new bulb.
- **Should BULBS BE TAKEN UP AFTER THEY BLOOM?**  
Daffodils, Heralds of Spring, and Lilies should be left undisturbed to multiply. Tulips and Hyacinths can remain in the ground for 3 years, but if you desire to move them to a new location, dig bulbs after the foliage has died down completely. Store bulbs in a cool place and replant in the fall.

Utilize space where Tulips have been growing by planting annual seedlings between the Tulip plants even before the foliage has died down, thereby providing for additional flowers in the same area.

## Holland At Its Best!

Perhaps more than any other flowers, Darwin Tulips symbolize the return of life to the seemingly dead earth. The spell of drab winter is suddenly and miraculously broken by these radiantly beautiful flowers.

Of all the Darwin varieties being grown, these Gold Medal varieties are by far the very best. No other Darwins can compete with them for size of bloom, color, and top-notch performance!

**Collection 14** 5 each of the above 5 varieties **\$2.80**

## Latest Flowering Tulips

With these latest-flowering varieties, you can extend your Tulip season for a week or more. They commence blooming when most of the May-flowering varieties have faded. We suggest planting the latest flowering Tulips with *Scilla campanulata*, for they bloom about the same time and make a wonderful combination planting. For example, plant the blue *Scilla* with yellow or white Tulips, or the mixed colors of *Scilla campanulata*.

	10	50
<b>ALASKA</b> (Lily-flowered). Uniform soft yellow.....	\$0 85	\$3 45

### Inexpensive Mixture of Single Early Tulips

The brightest Tulips in a riot of  
colors.

10 for 80c    100 for \$6.75  
25 for \$1.75

## Tulip Species

These charming Species or Botanical Tulips are the most versatile of all. Flowering in April, they enable you to have Tulips in bloom weeks before the Tulip season begins. Their odd, curious shapes and contrasting color combinations make them delightful subjects for the garden. Most of them are low-growing and are ideal for rock gardens, under deciduous trees and shrubs, and in borders. Plant them in full sun and where they may be left undisturbed, for these species increase in beauty year after year. Because of this, they are especially suitable for combination plantings with other permanent bulbs as suggested.

**CESAR FRANCK.** A new hybrid distinguished by its beautiful form and contrasting colors. The interior is a sparkling golden yellow with a red and black center. The outside of the petals is brilliantly striped crimson. Among the first of the Botanical Tulips to bloom.

3 for 90c      10 for \$2.50      50 for \$11.50

**KAUFMANNIANA or WATERLILY TULIP.** One of the most unusual and striking Tulips. The flowers are star-shaped and resemble the Waterlily. A soft primrose-yellow with a golden yellow center when fully open. The outer petals are marked crimson, giving a two-toned effect. Becoming increasingly popular.

3 for 75c      10 for \$2.15      50 for \$9.90

**RED EMPEROR.** This famous Tulip is the largest ever cultivated. The color is the most brilliant scarlet and of such intensity that the effect is almost blinding. When half opened, the flower shows a deep black base with a yellow edge. Blooms with early Daffodils and grows 18 inches tall.

3 for 50c      10 for \$1.40      50 for \$6.00

### *Kaufmanniana Tulips and Scilla, Spring Beauty*

An exciting garden picture in very early spring. The deep blue flowers of Spring Beauty are delightful when planted with the waterlily-shaped Kaufmanniana Tulips. Both will bloom in April and, if left undisturbed, will return every April in greater beauty for many years to come.

**Collection 21** 10 WATERLILY TULIPS 35 for  
25 SCILLA, SPRING BEAUTY **\$3.00**

### *Red Emperor Tulips and King Alfred Daffodils Bloom at the Same Time*

A stunning effect! Flaming scarlet Red Emperors set off to perfection by the golden yellow trumpets of King Alfred.

**COLLECTION 22** 6 RED EMPEROR TULIPS 18 for \$2.70  
12 KING ALFRED DAFFODILS

## Exciting New PEACOCK TULIPS

A new group of hybrids with the peculiar characteristic of unfurling their blossoms full and wide, thereby revealing the magnificent color variations of the interiors in a manner similar to the peacock, which proudly displays its feathers. Offered for the first time in America, they are sure to create excitement and interest in your garden.

3 for \$1.00; 25 for \$6.10

**10 for \$2.90**

Each Tulip displays an amazing variety of gay, harmonious colors, and the foliage is always distinctly striped purple-brown—similar to the parent plant Greigi. The flowers are long-lasting; blooming continuously from the time of the early to the late-flowering Tulips. Heights vary from 8 to 18 inches. Supply is still limited.

## in Combinations

With these Tulip Species, you can obtain stunning effects in your garden which will be repeated each spring for many years. There are countless numbers of ways these bulbs can be combined to make a beautiful planting. Early spring-flowering bulbs such as Scillas, Grape Hyacinths, Chionodoxa, and Puschkinia make lovely companions for these Tulips. They also lend their charm beautifully when planted with Mountain Pinks, white Arabis, and other low-growing perennials.

We offer several groups of combination plantings on these two pages. In addition to these, try your own combinations and see how easily you can create an original garden of your own.

**CLUSIANA** (The Candystick Tulip). A dainty species which, as the name implies, resembles a peppermint stick. The interior is glistening white with a small, dark blue base. The exterior petals are striped with crimson. Petals are pointed, giving an oblong effect when closed, and star-shaped when fully opened. Height 14 inches.

3 for 30c      10 for 80c      50 for \$3.50

**JOHANN STRAUSS.** Exquisite flowers with creamy white to soft yellow interiors; outer petals flushed red. The slender flowers with pointed petals lie close to the foliage, which is elegantly striped purple-brown. Height 10 inches.

3 for 95c      10 for \$2.75      50 for \$12.50

**PRAESTANS FUSILIER** (Quadruplet Tulips). These charming Tulips develop into large plants with four or more orange-scarlet flowers on a stem! A distinctive Tulip—graceful, elegant and very showy. One of the best for the rockery, it is also outstanding for group plantings throughout the garden. Height 8 inches.

3 for \$1.05      10 for \$3.10      50 for \$14.25

### *Clusiana Tulips and Blue Grape Hyacinths*

A lovely and striking combination which you will eagerly look forward to each spring. An exquisite carpet of deep blue above which the contrasting white and red colors of the Candystick Tulip show up splendidly.

**Collection 23** 10 CLUSIANA TULIPS 35 for  
25 BLUE GRAPE HYACINTHS **\$1.35**

### *Quadruplet Tulips and Scilla, Spring Beauty Bloom at the Same Time*

An exquisite garden arrangement—bold, red Quadruplet Tulips with graceful, intense blue Scillas.

**COLLECTION 24** 5 QUADRUPLET TULIPS 20 for \$2.20

# HYACINTHS

## Exhibition Size

Any flower fancier will impatiently watch the development of these beautiful flowers and enjoy with every-returning enthusiasm the tender beauty of the bell-shaped, highly perfumed flower spikes. Soon after the last traces of snow disappear, it is amazing to see the Hyacinths make their bold appearance and burst into bloom. The following varieties are highly recommended for pots and window boxes as well as for garden use where large, compact flowers are desired.

**BISMARCK.** Sky-blue.

**CITY OF HAARLEM.** Bright yellow.

**DELFT BLUE.** Porcelain-blue.

**JAN BOS.** Rich scarlet.

**LADY DERBY.** Satin rose.

**L'INNOCENCE.** Pure white.

**MYOSOTIS.** Pale blue.

**OSTARA.** China-blue.

**QUEEN OF THE WHITES.** Snow-white.

**PINK PEARL.** Light pink.

## Hyacinths in Combination Plantings

When planted alone, Hyacinths always dominate the garden scene because of their fragrance and bold, lusty blossoms. When planted with Single Early Tulips and Golden Trumpet Daffodils, their beauty is enhanced—while the Hyacinths, in return, complement the charm of their companions.

We offer at special prices the following combination plantings, which will give you a wonderful display each spring for several years to come.

### Collection 26

3 white Hyacinths together with  
5 Red Single Early Tulips

3 China blue Hyacinths together  
with 5 Yellow Single Early Tulips

**16 for \$2.25**

### Collection 27

12 Hyacinths, 3 each of white,  
pink, china-blue, bright red and  
20 Golden Trumpet Daffodils

**32 for \$3.75**

## RAINBOW MIXTURE OF BEDDING HYACINTHS

Very few flowers have colors which harmonize as beautifully as Hyacinths. For this reason, this amazing mixture of only the most distinguished colors is especially suitable to plant as a solid bed of Hyacinths alone, or scattered in clumps throughout the garden. Perfect against any background, these bulbs will produce very large flowers of uniform height making them easily adaptable to any design or pattern. Their magnificent blossoms are highly fragrant.

25 for \$4.65

100 for \$17.50

**10 for \$2.00**

## Bedding HYACINTHS

Sweet-scented Hyacinths always create stunning effects in one color or multicolored beds. These will produce magnificent flower spikes on strong stems at a time when color is so much needed in the garden. These medium-sized bulbs are especially suitable for garden planting and all will bloom at the same time.

**SNOW-WHITE  
DARK PINK  
DELICATE PINK  
BRIGHT RED  
PURE YELLOW  
CHINA-BLUE  
SKY-BLUE**

3 for 70c      50 for \$9.75  
**10 for \$2.15**

## Collection 28

3 bulbs each of the above 7 colors

**21 for \$4.20**

Bulbous Iris produce large flowers on strong stems, which makes them valuable for both cutting and garden use. For best effects, plant them close together. Bloom in June.

## DUTCH IRIS

	10	50
<b>GOLDEN HARVEST.</b> Golden yellow.....	\$0 45	\$1 75
<b>IMPERATOR.</b> Deep blue.....	35	1 50

<b>WEDGWOOD.</b> Standards blue; falls lighter blue.....	50	2 15
<b>WHITE EXCELSIOR.</b> Uniform pure white.....	45	1 75

**Collection 29** 10 bulbs each of above 5 Iris varieties **50 for \$2.10**

## INEXPENSIVE IRIS MIXTURE

Produce a wealth of flowers for cutting and garden by a generous planting of this mixture. All colors are included. Can be left in the ground if planted in a sunny location.

25 for 85c

**100 for \$3.00**

# DAFFODILS—NARCISSUS

The graceful, dancing Daffodils are a marvel of beauty in earliest spring. Their fresh, bright tones of yellow, varying from softest cream to boldest gold, bring gay color to the new season. They will grow in any soil or location. Plant them where they can be left alone to increase from year to year.

## GIANT TRUMPET DAFFODILS

Hardy, bold and dependable, they are among the most cheery and lusty of all spring flowers, making a superb picture by themselves or combined with other early-flowering bulbs.

# Unusual Spring-flowering Bulbs

Although small in stature, these bulbs bring a lot of charm and personality to the garden. For a perfect showing, they should be massed in groups of at least 10 or more. Try combining them with other spring bulbs, perennials and shrubs for pleasing effects.

**CAMASSIA ESCULENTA.** Forms flower spikes 2 feet high, bearing a cluster of star-shaped flowers of rich purple. Does well in all locations and naturalizes readily.  
10 for 30c 100 for \$2.00 25 for 60c

**FRITILLARIA MELEAGRIS** (Guinea-Hen Flower). Pendent, bell-shaped flowers in checkered shades of yellow, white, purple and brown appear on stems 12 inches tall in April and May. Mixture of all colors.  
10 for 55c 100 for \$4.75 25 for \$1.30

**IXIAS** (Corn Lilies). Tiny bouquets of numerous little flowers on thin stems. Attractive in the garden, they are also fine for cutting, lasting a long time in water. Blooms May and June. Protect in cold climates.  
10 for 30c 100 for \$2.00 25 for 60c

**LEUCOJUM** (Snowflake). Similar to the snowdrop but larger and stronger. Will develop into large clumps if left undisturbed. Blooms appear in late April.  
10 for 75c 100 for \$5.75 25 for \$1.50

## COLLECTION 38

Separately packaged and labeled.

10 Leucojum, 10 Fritillaria Meleagris, 10 Anemones, 20 Ixias.

50  
for  
\$1.80

ANEMONES.  
25 for \$1.10

## ANEMONES

Brilliant flowers, excellent for garden and cutting. They like a moist but well-drained soil. We advise early spring planting for northern states; fall planting for southern states. All colors mixed.

10 for 50c 25 for \$1.10  
100 for \$4.00

## DOUBLE RANUNCULUS

Unusual flowering bulbs producing large, turban-shaped or globular flowers, fully double and in a wide range of brilliant colors from red, through orange, yellow and pink. Bulbs resemble spiders and should be planted with claws extending downward. Early Spring planting advised for northern states; Fall planting for southern sections.

# The Earliest Blooms—All Eager to

The finding in bloom of the "First Flowers of Spring" is a great event and one of the genuine delights of life. Don't miss the joy and pleasure which these bulbs bring so soon after the winter snow has gone. Plant them generously under trees, shrubs, in the rock-garden, along the garden path, or scatter over the lawn. They will reappear year after year in greater numbers.

**CHIONODOXA** (Glory-of-the-Snow). Will produce an abundance of pretty, star-shaped, lively blue flowers with white hearts in early April. Will flourish in either sun or shade. Left undisturbed, they will increase rapidly in both number and size.  
10 for 30c      100 for \$2.25      25 for 65c

**CROCUS SPECIES.** These delightful Crocus will commence blooming weeks before the more common varieties. Each bulb will produce a charming cluster of flowers—as many as 12 flowers per bulb! They will multiply rapidly and many will drop their seed, which develop into new bulbs.

10 for 50c

100 for \$4.50

25 for \$1.20

**BLUE GRAPE HYACINTH ARMENIACUM** (Muscaris). The Grape Hyacinth is a favorite among our early spring-flowering bulbs, producing spikes of the clearest blue flowers. You can make the most beautiful edgings and groups with them. Use them in rock-gardens, under trees and shrubs, or combine with Daffodils. Height 6 inches. Blooms in April and May.

10 for 25c

100 for \$2.00

25 for 60c

# Herald the Spring !!

**WHITE GRAPE HYACINTHS.** A pretty white, contrasting with the blue variety.  
10 for 45c      **100 for \$3.50**      25 for \$1.00

**IRIS RETICULATA** (Sweet-scented Iris). Delightfully fragrant Iris. Flowers of deep purple with golden spot. Especially valuable for rock gardens. Height 6 to 8 inches. Blooms in early April.  
10 for 60c      **100 for \$4.20**      25 for \$1.15

**PUSCHKINIA LIBANOTICA.** Produces a wealth of creamy white flowers marked with beautiful china-blue stripes. They flower abundantly for a lengthy period, in sunny as well as shady places. May be left undisturbed for years. Grows 5 inches tall and blooms in April.  
10 for 30c      **100 for \$2.25**      25 for 65c

**SCILLA CAMPANULATA** (Wood Hyacinths). Tall, erect spikes of open Campanula flowers. Valuable for group planting in the flower bed or as companions to the May-flowering Tulips. Excellent for naturalizing in wild gardens and woodlands. Blooms in May. **BLUE, WHITE, and PINK.**  
10 for 40c      **100 for \$3.25**      25 for 90c

**SCILLA CAMPANULATA, Mixed Colors.** What is more beautiful than patches of blue, white, and pink blending over the ground while shrubs and trees show their first fresh, green foliage.  
10 for 35c      **100 for \$3.00**      25 for 85c

**SCILLA SIBIRICA** (Blue Squill). Produces several spikes of intense blue flowers 4 inches tall. Ideal for naturalizing everywhere. Blooms in April.  
10 for 35c      **100 for \$3.00**      25 for 85c

**SCILLA SIBIRICA ALBA.** A beautiful white form of the above.  
10 for 50c      **100 for \$4.00**      25 for \$1.10

**SCILLA, SPRING BEAUTY.** A new variety similar to *Scilla sibirica* but distinguished by its heavy, well-filled spikes of deep blue. Also ideal for indoor culture.  
10 for 50c      **100 for \$4.50**      25 for \$1.20

**SNOWDROPS** (*Galanthus nivalis*). Their lovely, white, nodding blooms appear before the frost is out of the ground. For best effects, they must be planted thickly under trees and shrubs and in rockeries where they will soon make dense colonies. Once planted, they remain for years.  
10 for 50c      **100 for \$4.25**      25 for \$1.15

**DOUBLE SNOWDROPS.** The flower cups of these are filled with many small, white petals.  
10 for 75c      **100 for \$6.00**      25 for \$1.60

**WINTER ACONITES** (*Eranthis hyemalis*). The buttercup-like flowers rise above a dark green rosette of foliage 3 inches above the ground. They bloom a few weeks before the Crocus. Especially recommended for naturalizing in woodlands and rockeries.

## Mixture of "HERALDS OF SPRING" for Naturalizing

Here is a wonderful opportunity to become acquainted with all the charming HERALDS OF SPRING. All the many different varieties are included. Planted together, they achieve a picturesque show for many weeks. Plant as many bulbs as space permits under trees and shrubs, in rock gardens, fields and woodland, on slopes and along streams. They will return each spring—bringing more blooms than ever before.

25 for 65c      **100 for \$2.25**      1000 for \$21.00

## HARDY AMARYLLIS

### LYCORIS

#### (Magic Lily of the Orient)

These bulbs are among the rarest and most beautiful of all bulbous subjects. The long leaves, similar to Daffodil leaves, appear in early spring. They mature and die down in early summer only to be followed by the flower spike in August. The soft pink, lily-like flowers are carried several in a cluster on a stem sometimes as much as 3 feet tall. Pleasant perfume is an added attraction. Because the foliage is gone by the time the flowers come, it is very important to plant Lycoris where the leaves of other plants will help to cover its bare stems. A perennial border is a good place for it. They are perfectly hardy and will thrive under any normal garden condition. Select an exposed, sunny location free from tree roots. Prepare the soil by spading it to a depth of 12 inches and work in some bonemeal or well-rotted manure. Space the bulbs 12 inches apart, for they increase rapidly and will soon become crowded if planted too close. Cover the bulbs with 3 inches of soil.

Each 50c

## HARDY LILIES

Lilies come in such a variety of form and bloom over such a long period—spring, summer and fall—that they are invaluable in the hardy border. The handsome flowers combine well with various perennials, and their delightful fragrance is unmatched. When well established, Lilies increase in beauty each year.

**CANDIDUM** (Madonna Lily). Pure white, sweetly scented. Blooms in June. Height 4 feet.

Each 45c      3 for \$1.20      10 for \$3.50

**HENRYI**. Apricot-yellow. Beautifully curled petals. Blooms in August and September. Height 3 to 5 feet.

Each 60c      3 for \$1.55      10 for \$4.50

**LONGIFLORUM** (Easter Lily). White, trumpet-shaped flowers on 2-foot stems. Blooms in July.

Each 40c      3 for \$1.00      10 for \$2.75

**ORANGE TRIUMPH**. Brilliant orange, chalice-like blooms are born freely on 3½-foot stems. Blooms in June.

## Amazing Christmas Amaryllis

Have Amaryllis in bloom for the holidays! These bulbs have undergone a newly developed treatment in Holland during the summer months in order that their flowering period is amazingly advanced by so many weeks. This outstanding Holland strain of Amaryllis produces just about the most beautifully formed flowers of immense size, opening full and wide. Usually four flowers are produced on each stem and quite frequently a second stem appears after the first has finished blooming! Besides this, the colors are the richest, purest, clearest of tones—so do not confuse this magnificent Dutch strain with ordinary Amaryllis. Do not keep the bulbs in the dark at first, but place in a warm, light room and water sparingly. Follow carefully the planting instructions which accompany the bulbs. Soon after planting these bulbs, a heavy flower bud will appear and it is exciting to watch the spike push its way upward day by day and burst into bloom. It requires 6 to 8 weeks after planting for the prepared Amaryllis to bloom. The bulbs arrive from Holland about the middle of October and will be promptly forwarded to you after arrival.

**Magnificent DEEP RED AMARYLLIS.**

## INDOOR BULBS FOR WINTER FLOWERING

Enjoy colorful spring blossoms and heavenly fragrance in your home during the drab winter months. You will be astonished to learn how easy it is to have flowers in your home weeks before they can be had in bloom outdoors.

**PAPER-WHITE NARCISSUS.** The popular white, sweet-scented flowers, can be grown in soil or in pebbles and water. For a continuous display, make successive plantings two or three weeks apart.

10 for \$1.00

50 for \$4.50

**NEW CRAGFORD NARCISSUS.** Can be grown like paper-whites. Creamy white flowers with orange cups. Bloom in early January.

3 for \$1.00

10 for \$2.70

**IRIS RETICULATA** (Sweet-scented Iris). An exquisite miniature Iris, highly fragrant, growing only 6 to 8 inches tall. Color is deep purple with golden spot. Can be easily forced to bloom about Christmas time. Plant 5 bulbs in a 4-inch pot.

10 for 60c

50 for \$2.10

**FAIRY HYACINTH, BORAH.** A new and unusual Hyacinth. Each bulb produces numerous slender spikes with flowers of a lovely soft blue color. Graceful and very pretty.

Each 45c

3 for \$1.20

10 for \$3.50

### INDOOR HYACINTHS

These Hyacinths are especially adapted for growing in pots or glasses. They can be forced to bloom indoors during the winter months from the end of January to the end of March as desired.
